

Leather Book Case

Practical leather case with stand function

This slim case allows you to use the iPad mini without taking it out of the case. It also has an incorporated stand which can be used in both typing and viewing mode. There are openings for all ports and controls as well as for camera and speaker.

On the inside of the case the soft lining makes sure the tablet is safely protected. Thanks to the slim design, the case does not add any bulk. When you want to use the stand function you just fold the front lid into a triangle and you are ready to watch a film or write an e-mail.

Screensize: No inches
